

EDA-EMERGE PHD student conference

„Emerging pollutants and multiple stressors in aquatic ecosystems“

Leipzig, Germany 29 June - 1 July 2015

EDA-EMERGE aims to train a new generation of young researchers in monitoring, assessment and management of toxic pollution in European river basins. With this conference, EDA-EMERGE offers a platform for PhD students working in the field of emerging pollutants and multiple stressors to exchange ideas, views and experiences in a relaxed atmosphere.

Join the conference to...

- exchange information about new approaches, latest methods and recent findings in the field of emerging pollutants and multiple stressors
- establish networks for future research & cooperation
- attend keynote lectures of leading senior scientists
- learn about career perspectives in environmental sciences
- discuss visions for future research and research needs in the field of emerging pollutants and multiple stressors

Key facts

- **Date:** 29 June - 1 July
- **Venue:** KUBUS, Leipzig, Germany
- **Deadline for abstract submission & registration:** 15 April 2015
- **Conference language:** English
- **More information under:** <http://www.ufz.de/eda-emerge>

The conference offers...

- Free participation
- Platform and poster presentations for PhD students
- Keynote lectures on emerging pollutants, multiple stressors and related topics
- Talks on career perspectives for young environmental scientists
- The possibility to chair a session in order to train your skills as moderator at a scientific conference
- Participation in a common opinion paper
- Networking in a relaxed atmosphere
- Social events including an excursion, barbecue and get together

This conference is supported by leading partner projects of related research fields:
